

ICHIRO'S MALT Malt & Grain

Product Type: Japanese whisky
Category: Blended
Alcohol: Alc. 46.5% Vol.
Format: 70cl bottle
Producer: Ichiro's Malt
Region: Pref. of Saitama

Product short description:

Made from a blend of malt and grain whiskies, it is bottled at 46%, without cold filtration. A young and smooth whisky, but also rich and full of character, which demonstrates the talents of its creator.

Blended Whisky, Japon / Honshu - Saitama
70cl - alc. 46.5% vol.

Detailed tasting notes: this blend is the work of Ichiro Akuto, distiller and owner in Chichibu and independent bottler of some of the rarest Japanese whiskies (Hanyu, Kawasaki etc...). Known for its blends of malts (Mizunara Wood Reserve, Ginkgo, Double Distilleries), this is the first time Ichiro sells its blends outside Japan.
